Test your audio and video recording

1. Open your chrome browser
2. Go to the CCCN site to login
3. Go to your Module or under "My Modules" go to the CCCN Prerequisite
4. Click on any Assessment 📄
5. Click Start

W0 Part 5: Connotations

Tom H. calls his new home his "new digs," says the long-term health care facility is "posh" and suggests the people are probably "hoity-toity."

1. What do Tom H.'s word choices tell you about his impressions and attitudes toward the place and the people there?
2. Which words could you use that have the same meaning as "hoity-toity" but give a different feeling about the place and the people there? Provide at least **two** alternative words.

⌨ *Type* your answer(s) in the Response Box.

Response Box: [Paragraph ▾ B I ...]

6. Click on the mic icon

7. Click the "Record" button and start recording your answer.

8. When finished click the "Stop" button. You can listen your audio by clicking the "Play" button

9. When you are satisfied with your recording, click the "Upload" button and wait for the message "Uploaded successfully"

10. Then, click the "Insert" button.

11. After you insert your file, this will display on the "Response Box".

Testing my audio recording

In order to test your audio, please record a short message.

"Hi, My name is _____. This is a test of my audio recordings."

This will help us to assess your audio. You will receive feedback from us indicating that your audio works OR if you need to schedule an appointment with Tech Support in order to resolve an issue.

Before you start, make sure that you have read the documents "Test my audio" and "Troubleshoot my audio."

🎙 ***Record*** *your answer(s) in the Response Box.*
